

# All-day school

## School daycare in Tyrol

### Fact Sheet

If you would like to register your child or children in daycare at your school, please complete one application form for each child and submit the application(s) to your school by **2 March 2026**.

Please note that an application does not guarantee that the school daycare will be provided. If there is an equal alternative to an all-day school program available in your town or community, such as a “Hort” (after-school care club) or a kindergarten that accepts children of school age, the town council is not obliged to provide school daycare at the school. Care during Lunchtime (“Bedarfsorientierte Mittagsbetreuung”) alone is not an alternative to school daycare or an after-school care club, as no afternoon care is offered.

At the registration it is not necessary to specify how many days or which particular weekdays your child needs daycare. You only need to indicate if your child will need school daycare at least one day per week.

### When can school daycare be organized?

The school authorities are obliged to provide school daycare at your school if at least 15 children are registered, regardless of the number of days or for which particular weekdays children are enrolled.

In addition - in exceptional cases, it is possible to install school daycare with the consent of the school authorities (town councils), so that school daycare can be offered even if fewer than 15 children are registered.

### Daily schedule

Daycare at school includes lunch, study time and leisure time. During study time, your child will be supervised by teachers. Lunchtime and leisure time care can be covered both by teachers and other pedagogically-qualified personnel.

Children from different age groups form groups of a maximum of 19 children. Homework supervision is provided.

### **Attendance of music school and/or community clubs**

In accordance with the national school laws, the absence from school daycare is excused if you have a justified reason or permission, which is given by the school authorities or the head of school daycare.

A well-rounded school daycare program should cater to the needs of students and parents. Therefore, the regular attendance of music schools and/or community clubs is seen as a justified reason for an authorized absence from after-school day care.

### **Costs**

- There are no fees for study times.
- The fee for daycare during lunch and leisure times is set by the school authorities (town council).
- In the case of registration for only individual weekdays, the school authorities (town council) will collect the fee in partial payments over a period of time.
- In addition to this fee, lunch fees need to be paid. The school authorities can waive these daycare and lunch fees in part or in full based on income or family situation.

A registration of children attending 4th grade of primary schools is submitted to the school that the child will visit in the school year 2026/27.

The registration of children attending 8th grade is submitted to the schools that are specified by the parents on the enrollment sheet.

The opportunity to register your child for school daycare for the next year 2026/27 is now!

**Deregistration** from the school daycare program can only be done at the end of the semester or school year.
